

Creating a Safe and Secure Base for Children

Children need a secure base from which to develop and grow. Ready Set Go (RSG) focuses on supporting the child's family and Early Childhood Service to provide this. RSG works to strengthen parent - child and educator - child relationships as the foundation of practice and intervention. When this secure base is established, RSG supports parents and educators to understand, respond to and nurture the child's development.

Ready Set Go is funded to support families with children 0 – 6 years whom have developmental needs and live in Lismore or Goonellabah. Priority is given for families who:

- are experiencing complex family stressors
- have long term financial hardship or disadvantage
- are Aboriginal or Torres Strait Islander

Contact Ready Set Go if:

- Your child's talking, learning, playing and behaviour does not seem to be the same as similar aged peers
- You feel you are having difficulty responding to and supporting your child
- You need help to access Early Childhood or health services

Ready Set Go is a Communities for Children Project. Communities for Children in Lismore is funded by the Australian Government and facilitated by YWCA Australia. The service has been delivered since 2005 by Northern Rivers Children's Services Ltd, a non-profit organisation.

Ready Set Go

Ready Set Go (RSG) is a relationship based, therapeutic early childhood development and parent support program for families in Lismore and Goonellabah. RSG is committed to working in partnership with parents and Early Childhood Services to support children to develop towards their unique potential. The RSG program encompasses therapeutic child and parent play, parent support and education, speech pathology, occupational therapy, subsidised fees and transport for eligible families. RSG also provides co-ordination between services to collaboratively improve the health, development and well-being of children.

Access Program

Provides eligible families with subsidised childcare fees and / or transport to early childhood services.

Parent Education & Support

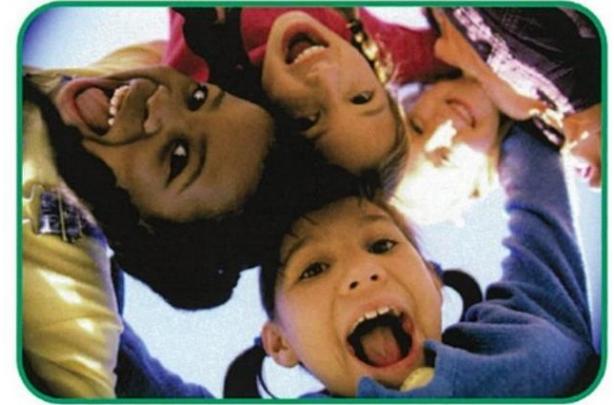

Therapeutic child and parent play, education and support with understanding child development and guiding behaviour. Assistance for families to access local health, family support and housing services through referral and advocacy and access to other support services. Assistance for families to find appropriate early childhood services to suit the individual needs of their child.

Speech Pathology

Assessment and therapy for children who have difficulty with speaking, listening and understanding language. The Speech Pathologist assists children to develop speech, language and communication skills and partner with parents and educators to increase and improve interactions.

Occupational Therapy

Assessment and therapy for children to promote their participation in play and everyday activities. The therapist assists children to develop fine motor skills, gross motor skills and support the development of sensory processing and independence with self-care skills (e.g. toileting).

Our Aims are:

- To support parents and families of young children to connect with (attune), understand and nurture their child's development.
- To provide therapeutic, individualised support for children identified as having additional learning needs.
- To improve the health, development and wellbeing of local children aged 0 - 6 years.
- To provide individually tailored support for parents to improve family life and meet the developmental needs of the child.
- To assist families to access early childhood education.
- To encourage and advocate for collaboration between early childhood and family support services.
- To support children in Early Childhood Services through the provision of education, training and advice to educators.
